

A YOUNG MOTHER

flushed with perfect health and strength, said, as she exhibited with pride her baby, "I must confess that my present health and the almost phenomenal development and good health of baby are due to the use of Pabst Malt Extract, The 'Best' Tonic. The necessity of feeding the child was such a tax on me at first that I became nervous, weak and exhausted. 'Best' Tonic was recommended. I took it and began to build at once. Baby began to show the effects within a week. I continued its use for months, until I went out into the country and neglected to take my tonic with me. I lost fifteen pounds in six weeks, and could scarcely feed baby. Since returning, some three weeks ago, I have again been taking 'Best' Tonic. I have gained six pounds and the little one is again progressing. Just think, he is nineteen months old, weighs 32 pounds, and I have not weaned him yet."

Let every mother apply this to her own experience and at least give the 'Best' Tonic a trial, if not for her own sake, for that of her child. Let her provide for baby as nature says every mother should.

To produce magnificent children was a supreme aim among the Greeks, those lovers of perfection in those rigid and letic exercises which aggrandized the glory of the body. For without a perfect body how can a babe at once begin to fight the battle of existence with conquering energy, or how derive those elements of hardiness, pure blood, calm nerves and bright mind, if the mother is not prepared, helped and insured against too great weakness, given the

right sustenance, and kept in a position of ease, happy thought, pleasing sensations and good sound slumber? Hundreds of children are puny, slow, with nerveless supine motions and unintelligent countenances, because the mother was forced to put all her energies into the power to bear them, without the strength besides to give them the vital flow of sturdy health. Habitual use of Pabst Malt Extract, The 'Best' Tonic, makes rich and pure blood, strengthens the bones and muscles, and adds to the development of the perfect form, a glowing vitality in the mother, which aids her not only to bear, but build.

I have seen very good results from the prolonged use of your Malt Extract, The 'Best' Tonic, and I find it benefits them as much as it has F. J. HASTINGS, M. D. Boston, Mass.

DR. F. BICKERLAURICH, New York, N. Y.

I find Pabst Malt Extract a very good tonic, and have or-

My wife has begun to take Pabst Malt Extract, and it seems to have benefited her

already, though she has not taken enough yet to expect any great improvements. She has taken a great deal of malt and thinks that, on the whole, Pabst's is the best in reality as well as in name. I shall surely prescribe The 'Best' Tonic in cases where a malt extract is indicated. G. W. HUSE, M. D. Dorchester, Mass.

THE PHONOGRAPH.

Some of the Puzzles That the Interesting Invention Presents.

"There are lots of mysterious things about the phonograph that puzzle even those who are most familiar with their mechanism," remarked a gentleman who has had long experience in the talking machine business. "As a matter of fact, no scientist has ever been able to explain exactly why the thing talks. They say a 'duplicate vibration' is set up, but when you pin them down they all are obliged to admit that they don't know why the operation of the transmitter should produce any such result. Then, again, the difficulty in recording certain tones has always been a puzzle.

"The most improved form of the machine has, as you know, an extremely large cylinder, nearly four times the size of the ordinary one, and for some unknown reason it very materially increases the volume of sound. It would seem, then, to be a logical inference that the bigger the cylinder the louder the tone, and, proceeding on that theory, a very bright young electrician of this city started the other day to build an instrument that was really gigantic. "He put it together without much trouble and made an experimental cylinder nearly a foot in diameter. I was present when it was tested. Every part of the machine worked perfectly, and a beautifully engraved record was secured, but when the transmitter was attached we were astonished to find that the sound was barely audible. As nearly as we could figure it out the tone was magnified up to a certain point by making the cylinder larger, but beyond that the process was reversed, and it was progressively diminished. Queer, wasn't it?"—New Orleans Times-Democrat.

THE FRENCH MENAGE.

Complaint That It Is Not the Model Affair Claimed For It.

An English writer who has evidently suffered in rather severely against the long extolled thrift of the French housekeeper, which, if it be thrift, is, according to his notion, pernicious and economy. He considers the meager messes served and reserved until the last scrap is consumed which make up the unsatisfactory and far from appetizing. "It has been said," he quotes, "that a French housekeeper will serve a grilled chicken foot, making it a substantial course." This he denies—not the service, but the substantial part of it.

As to the soup of the provincial French home, he asserts it is not a thing to be described by the uninitiated, and it is certainly not meant for a delicate palate. It tastes like hot water in which quantities of cabbage have been boiled. "Then," he goes on to affirm, "the only dish of meat will often consist of that which has been used in the making of the soup."

This testimony is borne out by American travelers, who get very tired of soup meat as a dinner dish. For the flavoring and finishing of a dish the French are doubtless unsurpassed, but the allegation that the sauce is made more important than the substantial and that the garnishing takes precedence over the dish it surrounds is not without considerable foundation. The well known story of the French cook who won a wager by serving a boot heel scraped and stewed and simmered and finally served with an entrancing sauce is a good illustration of much French cooking.

Miss Matilda Shaw and Miss Mary Shaw, of Paoli, came here last evening to visit their only aunt, Mrs. Sophia Doane who is very ill.

Mrs. Andy Ritz went Friday to Crothersville to visit relatives.

Women in Business

Business men often express the opinion that there is one thing which will prevent women from completely filling man's place in the business world—they can't be depended upon because they

are sick too often. It is true that many women are compelled to look forward to times when they are unable to attend to social or business duties. Their appearance plainly indicates their condition and they are reluctant to be seen, even by their friends. Read what a business woman says to such sufferers:

Mrs. C. W. Mansfield, of 58 Farrar St., Detroit, Mich., says:

"A complication of female ailments kept me awake nights and wore me out. I could get no relief from medicine and hope was slipping away from me. A young lady in my employ gave me a box of Dr. Williams' Pink Pills for Pale People. I took them and was able to rest at night for the first time in months. I bought more and took them and they cured me as they also cured several other people to my knowledge. I think that if you should ask any of the druggists of young women, these pills certainly build up the nervous system and many a young woman owes her life to them."

"As a business woman I am pleased to recommend them as they did more for me than any physician and I can give Dr. Williams' Pink Pills for Pale People credit for my general good health today."

The hardest part of a woman's life is made easy by Dr. Williams' Pink Pills for Pale People. Our new book "PLAIN TALKS TO WOMEN" tells how. A copy sent free to any address on request.

The wrapper of the genuine package is printed in red ink on white paper and bears the full name. Look for the seven celebrated words.

The special electric light committee's report has aroused more or less interest in question of lighting the city. It is one in which we are all supremely interested at this time. The information gathered from other cities, if properly analyzed and considered can be of much value to the council. The committee did creditable work and the report submitted is carefully made. The suggestion made by councilman Miller Thursday night when the report was made, that the plants in several cities where coal is used for fuel, is worthy of consideration. At Rushville where coal is used this committee found the fuel cost to be about \$330 a month the past three months. The difference in the expense where natural gas is used for fuel and where coal is used, is said by those in the gas belt, to be from \$10 to \$12 per acre light per month. Therefore it seems that it would not be a bad idea for this same committee to visit a few cities in the southern part of the state and gather information similar to that they gathered in the gas belt. The original cost of installing plants in different cities is a matter of information that would also be of value to the council. In fact the council is entitled to all the information attainable before acting on so important a matter.

The Indianapolis city council have accepted the proposition of Hugh McGowan et al for a thirty-four year street railway franchise. The street-car people have a mighty good thing of it, but the city might have done better.

SEYMOUR has had two street fairs, the best and most successful ever held in the state. They resulted in much good to the city, by bringing thousands of people here to note our enterprise and progress. The question now arises, will we have another? If so we will need to begin preparations soon, for there is a vast deal of preliminary work in connection with a street fair. And we know by experience that it takes unity of effort to attain the highest success. Do we not want to have a street fair this coming fall with even larger proportions than those of past years?

Priceless Pain

"If a price can be placed on pain, 'Mother's Friend' is worth its weight in gold as an alleviator. My wife suffered more in ten minutes with either of her other two children than she did at the birth of her last, having previously used four bottles of 'Mother's Friend.' It is a blessing to any one expecting to become a mother," says a customer.

Thus writes Henderson Dale, Druggist, of Carmi, Ill., to the Bradfield Regulator Company, of Atlanta, Ga., the proprietors and manufacturers of "Mother's Friend." This successful remedy is not one of the many internal medicines advertised to do unreasonable things, but a scientifically prepared liniment especially effective in adding strength and elasticity to those parts of woman's organism which bear the severest strains of childbirth.

The liniment may be used at any and all times during pregnancy up to the very hour of confinement. The earlier it is begun, and the longer used, the more perfect will be the result, but it has been used during the last month only with great benefit and success.

It not only shortens labor and lessens the pain attending it, but greatly diminishes the danger to life of both mother and child, and leaves the mother in a condition more favorable to speedy recovery.

"Mother's Friend" is sold by druggists at \$1.00, or sent by express on receipt of price.

Investment Insurance.

State Statistician Conner yesterday sent out a series of questions to each general agent of a life insurance company doing business in this state, with the object of ascertaining the amount of money placed in insurance companies by residents of this state as investment insurance. Under the new law the agents will be compelled to answer the questions, and it will be the first time an accurate statement of "investment insurance" has been secured.

Columbus Wants a Street Fair.

Greensburg will hold a free street fair on the week ending Oct. 2, 1899. Seymour will hold her third annual street fair in September. Now, when will Columbus hold her first free street fair? It were better to spend the money at home than to go to Seymour and Greensburg to spend it. It is understood that many of the business men favor a street fair. If so, why should not Columbus have one on her new Asplust streets?—Columbus Republican.

"The New Era."

The first issue of Crothersville's new paper, "The New Era," is before us. It is a seven column folio, two pages printed in the home office, and contains a good supply of local news. W. N. A RACIAL BATTLE
Japanese and Chinese Laborers in Honolulu Come Together.
SPIKED CLUBS AND KNIVES
Used by the Japs With Fearful Effect—Chinamen Were Taken Unawares—Merchants in Honolulu Fear Further Trouble—Ringleaders of Both Races Arrested.
San Francisco, April 8.—The steamer Mariposa arrived last evening from Australia, via Samoa and the Hawaiian islands. A press representative at Honolulu sends an account of a racial battle between the Japanese and Chinese laborers on the Kahuku plantation, which took place on March 26. For some time trouble has been brewing between the Japanese and the Chinese. The Japanese, armed heavily and well organized, made an onslaught on the Chinese quarters, first having placed their own women and children in places of safety. The Chinese were taken entirely unawares. The Japanese wielded spiked clubs, knives and axes, and before the Chinese could make resistance three of their men were killed and a dozen more seriously wounded, some fatally, and about 40 slightly injured.

COTTONMILLOPERATIVES
Three Thousand Idle at Providence as a Result of a Strike.
Providence, April 8.—About 3,000 cottonmill operatives are idle, as the result of the many strikes in this state, and more than 7,000 looms in the Pawtucket valley (6,000 of them in the mills owned by Robert Knight) are not in operation. The latest recruits to the strikers' ranks are the employees of the Natick mills. It is expected that the Pontiac weavers also will join the movement.

Street Railway Employees.
Bay City, Mich., April 8.—The street railway strikers yesterday put omnibuses and carriages on the longer streetcar routes and are thus endeavoring to accommodate the travel. Judge Robbins, secretary and judge of the state court of mediation and arbitration, is trying to settle the trouble. All is quiet, but both sides are determined, although there is no intention of violence if running of cars is attempted, the strikers being willing to let the people judge whether to patronize the cars under the circumstances.

MARCH, APRIL, MAY.
Paine's Celery Compound the Best Spring Medicine in the World.

Spring finds everybody more or less "run-down."
"Spring lassitude" is not an empty phrase. It is not a superstition or a worn out saying, but a strictly scientific fact.
Prudent people all over the country appreciate the fact that in the spring the health is more under every one's control than at any other time, and whether sick or well—
They are taking advantage of the marvelous invigorating power of Paine's celery compound. On every hand there are sarsaparillas, nervines and tonics, but they do not touch the edge of the real trouble—nervous debility.
When such remedies have been tried and proved valueless, Paine's celery compound has surprised and delighted by its wonderful lasting results.
Nature, the kindest and gentlest of nurses, is disposed, during these spring days, to put the blood and nerves in a healthy condition and no remedy so ably second her effort as Paine's celery compound.
This best of all spring remedies is making people well and insuring others against future break-downs.
As soon as spring sets in—it is now the season—everybody has

more or less a feeling of languor; there is diminished appetite, disturbed sleep, less buoyancy of spirit and less disposition to exercise; some people are so indisposed that they have to keep in the house and numbers take to their beds.
The irritability of temper, the peevishness, drowsiness, and uneasiness that comes in spring, shows that the nerves are the chief sufferers.
Nervousness, that so often appears at this season, inserts the thin edge of this wedge that opens the way for a long list of maladies. If you are overworked, haggard from sleepless nights, nervous and unhappy, do not give way to dread and depression before you have tried Paine's celery compound. It is the one fair test of this wonderful remedy—to try it.
Now spring has come, the tired feeling and "out of sorts" condition are to warn one that the blood is impure and the nerves "run down." Paine's celery compound assists nature at this critical time. It supplies a scientific nerve food. Taken now it will enable the body to throw off headaches, rheumatism and ailments akin to nervousness. It will sweep out every impurity from the blood and will nourish the nerves and brain. It is the most effective, accurate spring remedy ever formulated.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative power, that they offer One Hundred dollars for any case that it fails to cure. Send for list of testimonials.

Grain-O Brings Relief to the coffee drinker. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee but the effects are just the opposite. Coffee upsets the stomach, ruins the digestion, effects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment in Grain-O. It can't be other wise. 15 and 25c per package.
I was reading an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the Worcester Enterprise recently, which leads me to write this. I can truthfully say I never used any remedy equal to it for colic and diarrhoea I have never had to use more than one or two doses to cure the worst case with myself or children.—W. A. STROUD, Popomoke City, Md. For sale by C. W. Milhous.

A Great Deal
Of unnecessary expenditure of time and money may be saved if you will only keep a bottle of Dr. Caldwell's Syrup Pepsin in the house. Ninety-tenths of all ordinary sickness is from the stomach; keep that organ in proper condition and all will be well. Syrup Pepsin is a specific. Trial size bottles 10c, large sizes 50c and \$1.00 of A. J. Pellens, druggist.
The illustrated articles of the April Magazine Number of The Outlook include one by F. Marion Crawford, the famous novelist, on Leo XIII., a personal and anecdotal article on M.
